

# Biomat's Effect on Inflammation, Before and After Thermograms

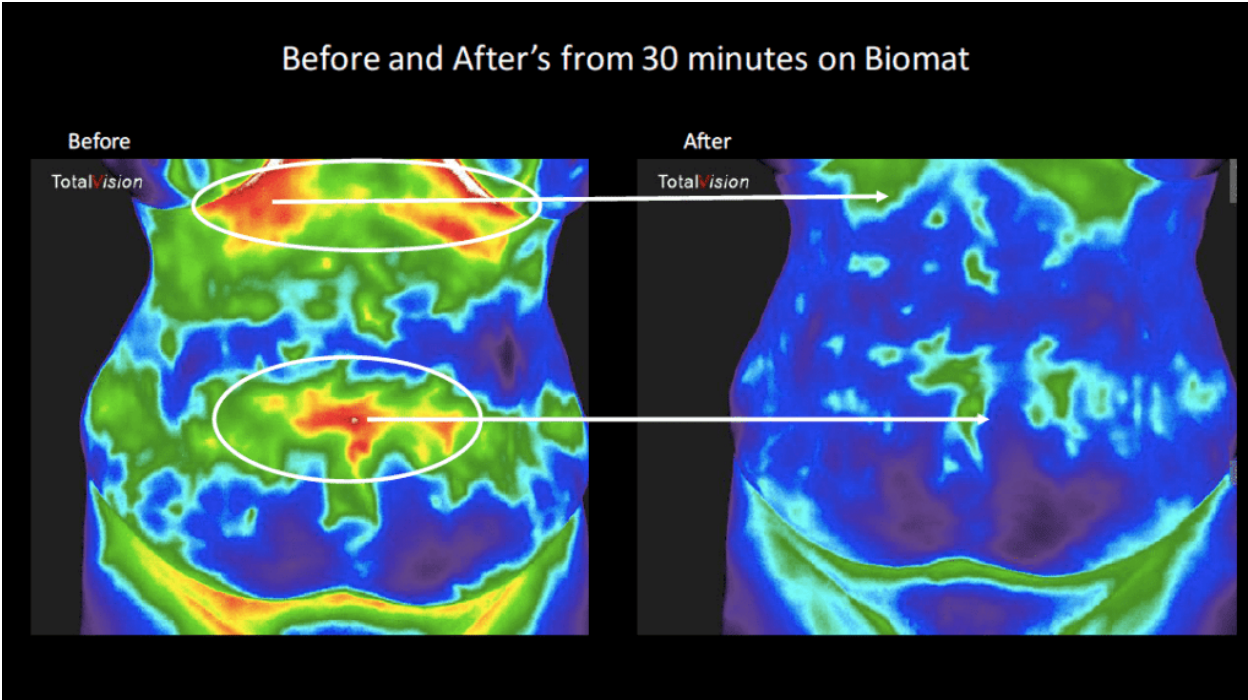

Before and after images taken using a Med-Hot Max 307 Medical Infrared Camera within 5 minutes of treatment. The colors represent the difference in temperature within the body scaling from the hottest, white – red – orange – yellow – green – blue, to coldest.

These before and after images show the effects of using a BioMat for 30 minutes and how BioMat may help reduce inflammation, appearing as warm red spots before treatment.
